

January 2019 Borough Councillor report for

Chevington Parish Council

Local issues

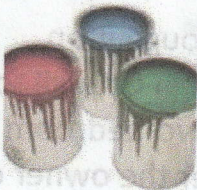

Parish Councillor request for information on paint disposal and Bury St Edmunds Car

Parking Charges.

- ^{Disposal} Paint ~~Disposal~~. <http://www.greensuffolk.org/recycling/a-z-of-recycling/>

Where to recycle: Household Waste Recycling Centres - [Bury](#) [Felkistowe](#) [Foxhall](#) [Hadleigh](#) [Haverhill](#) [Ipswich](#)
[Leiston](#) [Lowestoft](#) [Mildenhall](#) [Stowmarket](#) [Sudbury](#) Other recycling options: [Reduce & Re-use](#)
[Bring banks](#) [Help](#)

Paint

Reduce: Only buy the amount you require for the job (the guidelines on the tin will help you assess this), and use it all up, to avoid left-over paint.

Reuse: Keep any left-over paint for future use e.g. recoating, patching. Some great tips for keeping paint so it can be used again can be found on this American website, to read more [click here](#). You can also offer any left-over paint to friends, neighbours, relatives if you have no use for it and are unable to store it for future use.

Disposal: Small amounts (i.e. less than 1/4 tin-full) of emulsion or acrylic paint can, once dry and solid, be double-bagged and disposed via the kerbside rubbish bin or the non-recyclable container at any Suffolk Household Waste Recycling Centre. To aid the drying process, the lid should be left off, and sand, dirt or sawdust can be added but please ensure the paint has completely solidified before placing in the bin or taking to the Recycling Centre (you may need to leave it for a couple of weeks before disposal).

Solvent-based paints cannot be treated in this way and can only be disposed of through the **hazardous waste collection service**.

- **Car Parking.** A reduction in car park car use and retail (Not unique to BSE), in 2018 is partly attributed to the public buying online. I have, however, passed on the request from Councillors about the cost of parking and the impact this may also have.
